

## Nissan e.dams signs Buemi and Albon for Formula E debut

# Nissan e.dams signs Buemi and Albon for Formula E debut

- Record-holding racer and young star to lead Nissan's debut in

**YOKOHAMA, Japan** (Sept. 20, 2018) – Swiss racer Sebastien Buemi and U.K.-based Alex Albon will drive for Nissan when the global electric vehicle sales leader [makes its debut](#) in the ABB FIA Formula E Championship in December.

Nissan's Formula E program will show a new "performance side" of Nissan Intelligent Mobility – the company's vision for changing how cars are powered, driven and integrated into society. As the first Japanese company to join the electric racing championship series, Nissan will draw on its proven experience as the all-time world leader in electric cars – having sold more than 350,000 Nissan LEAF vehicles since introducing the model in 2010.

Buemi, 29, spent the past four seasons as a driver with e.dams, Nissan's Formula E racing partner. He will debut in Nissan colors aboard the company's new Gen2 Formula E car at next month's series open test in Valencia, Spain.

Buemi's past accomplishments on the track include taking the 2015/2016 driver's championship and setting series records including most wins, most pole positions, most fastest laps, most consecutive wins, most wins in a season, most consecutive point scoring finishes, most laps led and most races led.

"Season five will be a whole new beginning for me in many ways," Buemi said. "There's so much that's new – the cars, the race format, the venues. I look forward to continuing to work with e.dams and bringing the excitement of Nissan's world-leading electric vehicle technology to motorsports fans all over the globe."

Albon, 22, will make his Formula E debut with Nissan after impressive performances in the international junior single-seater categories. He finished second in the 2016 GP3 series and is currently third in points in this year's FIA Formula 2 championship, with three wins.

"The level of competition in the series is intense, and I'm looking forward to testing myself against some of the best drivers in the world," Albon said. "Electric street racing will be a new challenge for me, but working with Sebastien as my teammate will be a huge help, as he has set the benchmark for performance in the series."

Nissan will make its Formula E debut in the first round of season five, which takes place Dec. 15, 2018, in Riyadh, Saudi Arabia. Races will follow in Marrakesh, Morocco; Mexico City; Hong Kong; Sanya, China; Rome; Paris; Monte Carlo, Monaco; Berlin; and New York. Additional races are scheduled for Jan. 26 and June 9, 2019, at venues to be announced.

"Sebastien's impressive record in the Formula E championship speaks for itself, and pairing him with a young star like Alex is a great combination," said Michael Carcamo, Nissan's global motorsports director. "We can't think of a better team to showcase our innovative technologies and our Nissan Intelligent Mobility vision."

Jean-Paul Driot, principal of e.dams, said: "Sebastien has been an important part of the e.dams team since our first Formula E race four years ago in China. We know Alex well from his performances with DAMS in Formula 2, and we're excited to bring his talent into the Formula E championship."

**About Nissan Motor Co., Ltd.** Nissan is a global full-line vehicle manufacturer that sells more than 60 models under the Nissan, INFINITI and Datsun brands. In fiscal year 2017, the company sold 5.77 million vehicles globally, generating revenue of 11.9 trillion yen. On April 1, 2017, the company embarked on *Nissan M.O.V.E. to 2022*, a six-year plan targeting a 30% increase in annualized revenues to 16.5 trillion yen by the end of fiscal 2022, along with cumulative free cash flow of 2.5 trillion yen. As part of *Nissan M.O.V.E. to 2022*, the company plans to extend its leadership in electric vehicles, symbolized by the world's best-selling all-electric vehicle in history, the Nissan LEAF. Nissan's global headquarters in Yokohama, Japan, manages operations in six regions: Asia & Oceania; Africa, the Middle East & India; China; Europe; Latin America; and North America. Nissan has a global workforce of 247,500 and has been partnered with French manufacturer Renault since 1999. In 2016, Nissan acquired a 34% stake in Mitsubishi Motors. Renault-Nissan-Mitsubishi is today the world's largest automotive partnership, with combined sales of more than 10.6 million vehicles in calendar year 2017.

### About Nissan Formula E

Nissan will become the first Japanese automotive brand to compete in the all-electric FIA Formula E racing championship starting in late 2018. The innovative championship will be used to showcase Nissan Intelligent Mobility – Nissan's three-pillar strategy to redefine how its vehicles are driven, powered and integrated into society.

Nissan's entry into the electric street racing championship coincides with the launch of the new generation Formula E car which features striking new aerodynamics and an entirely new battery and powertrain package.

Season five of the Formula E series is expected to begin in December 2018 and visit major cities around the world including New York, Paris, Berlin, Rome, Zurich and Hong Kong. Nissan revealed its Formula E intentions at the 2017 Tokyo Motor Show and will showcase its concept livery at the 2018 Geneva Motor Show.
